### 3,273 ADDED TO PAYROLLS AT DETROIT

DETROIT. — (Associated Press.) — A material improvement in the employment situation here is generally expected as a result of action taken within the past few days by industrial heads and which included announcement last night that all employees of the Ford Motor company, many of whom have been working not more than three days a week, would be placed on a straight five days a week schedule. Heads of other factories have joined the movement to find places for idle ex-soldiers, many of whom have been put to work this week.

The weekly report of the Employers' association of which 79 industrial corporations are members, shows that for the week ending March 21, a total of 3,273 men were added to the payroll, bringing the aggregate to 129,324. This total is approximately 25,000 below the figure regarded as normal.

The report adds that an actual shortage of certain highly skilled workers faces the automotive industry and this statement agrees with a recent report by headquarters of the automobile workers' union which declared practically every man who could properly be classed as an experienced automobile worker was employed. There still exists, however, a large surplus of unskilled workers.

NEW YORK. — Accompanied by newspaper men familiar with the city, Mrs. Graham Duffield of Chicago, set out again today to comb the East Side for trace of her 17-year-old son Gordon, heir to his uncle's million dollar estate. The boy several months ago ran away from school in Plainfield, N. J., and was reported to have become a dishwasher on the Bowery to experience "real poverty."

### CUTS THROAT OF TWO SONS, KILLS SELF

CLEVELAND. — (Associated Press.) — Crazy by domestic difficulties growing out of six months unemployment, according to police, Frank Sauch, 41, early today slashed the throats of his two small sons, Frank, Jr., 11, and Henry, 9, and then committed suicide by slashing his own throat and wrists with a razor. The two sons are in a serious condition, hospital physicians say.

Mrs. Theresa Sauch, the mother, and her two young daughters, hearing the boys screams, dashed into their bed room where the father was bending over the boys with an uplifted razor. The mother lifted Henry from the bed, and, pursued by the husband, reached safety in a neighbor's apartment. The girls and elder brother escaped by another door.

Police broke down a door leading to the father's bed room and found him lying on the bed with his neck and wrists slashed. He died on the way to the hospital.

### LEAGUE MAY BE ASKED TO O. K. TREATY

WASHINGTON. — (United Press.) — The league of nations may be asked to give formal approval to the four-power Pacific treaty, after the three other signatory powers have followed the example set yesterday by the senate in ratifying it.

Direct approval by the league would stamp the treaty before the world as a treaty for peace and would silence critics who claim it is antagonistic to the spirit of the league. It was pointed out today by Republican senators, to whom information has come that one of the signatory powers may ask the league's action.

It was further intimated that the league would readily O. K. the pact as a "regional understanding for securing the maintenance of peace."

Such arrangements are specifically endorsed by Article 21 of the league covenant.

The senate's action yesterday made the United States the first of the four-powers to ratify. The other governments made no secret of the fact that they were waiting for the senate's verdict. Had it been adverse, they would have dropped not only the four-power treaty, but all the other arms conference treaties as well, in the opinion of American officials.

Senator Lodge today called up the supplementary treaty drawn at Japan's request, which excludes the home land of Japan from the operation of the treaty. Lodge hoped to dispose of this today and get to work on the five-power naval limitation treaty, Monday.

### 7-FOOT SNAKE CAUSES PANIC INCLEVELAND RESTAURANT

CLEVELAND. — A seven-foot snake created a reign of terror in a restaurant here early today. He yelled "Snake!" as he passed thru the dining room and a waiter and two customers entered the race with him. Police Lieutenant Woodhill called to the scene, killed the snake.

### U. S. READY FOR ACTION IN WALKOUT

WASHINGTON. — (United Press.) — The government has decided on a program of protection for the public during the walkout of miners scheduled to start one week from today.

Until work is suspended all officials will adopt a "hands off" policy. Then at midnight, March 31, the government will issue a communication to federal agents throughout the nation, outlining its course of action during the tie-up.

The government will: Order all agents to protect mining property against any violence.

Warn both sides against any suggestion of violence and declare the attitude of the government as "impartial" except in so much as the public interests are concerned.

Ask coordination of civil and state authorities in the enforcement of law. Announce the miners must not interfere with miners who want to work if the operators choose to keep the mines open.

### HOLDUP FOILED, BANDITS FLEE

PHILADELPHIA. — (Associated Press.) — An employee of a postoffice garage, a night watchman and an alleged robber were wounded seriously today in three pistol fights with three robbers in West Philadelphia.

The shootings occurred after the robbers were surprised trying to force an entrance to the rectory of St. Francis de Sales Catholic church by George Sloan, private watchman. A hall of bullets was let loose on the watchman who fell wounded.

The robbers fled, pursued by police and took refuge near a postoffice garage, a mile away where they continued shooting. Four garage employees engaged them.

## HEAVY TOLL IS EXACTED BY PLAGUE

**TIRANA, Albania** — (Associated Press) — Tuberculosis, malaria and influenza are increasing alarmingly in Albania. The death rate is mounting daily. Whole towns and villages are affected. There is little medicine to be had. There are only a dozen doctors to minister to several hundred thousand persons. The Italians and the members of the American Red Cross are assisting the local authorities in fighting the epidemic.

There are neither hospitals nor nurses in Albania. Those who practice medicine are principally pharmacists and druggists with little or no medical training. When the Mohammedan members of the community fall ill, little effort is made at treatment. "It is the will of Allah," says the fatalistic Moslem and he calmly awaits the end.

Normally the Albanians are a healthy, hardy race, but the country, especially the coast towns and the valleys, is rank with malaria and infectious diseases. The damp, cold winter, poorly constructed houses and bad food have given tuberculosis a firm foothold throughout the country. Diseases incident to malnutrition, filth and neglect and bad water are everywhere prevalent.

Much of all this is the result of ten years of continuous war. The Albanians were poor in 1913. They have grown poorer with each passing year. Long privation, lack of nourishment, medicine and care have brought them to a point of great misery and impoverishment.

## THUNDERSTORMS ARE PROGRAMED

There's always someone taking the joy out of life. With Saturday an ideal spring day, the weatherman comes along with a prediction of showers and thunderstorms tonight and Sunday. 'Twill be warmer in the east and south portions of Ohio tonight, and cooler Sunday.

The thoughts of springtime are upmost in the minds of the people now. Consequently, a little thing like a rain storm, or even a snow prediction would not succeed in diverting them from that channel for any great length of time.

Growing things are becoming more attractive every day and the amateur gardener is in a seventh heaven of delight. If realization always equalled anticipation, there'd be no need of complaint about disappointments in this world, the gardener is convinced.

## STRICK MAY NOT ACCEPT CAPTAINCY

Failure of George Strick to accept the office of police captain may necessitate the promotion of another officer, it was learned Saturday.

Strick stood highest in an examination held in December. Morton F. Dawson passed the test for chief at the same time, but was never officially appointed, it developed later.

His resignation and the appointment of Thomas A. Lanier, Dayton, left a vacancy as captain and Strick was promoted.

But Strick has not accepted the position, and may not, according to statements made by him concerning the matter.

Strick was ranking sergeant of the department. The difference between sergeants and captain's pay is only \$5 a month.

It is said that Strick does not care to assume the added responsibility for so slight an amount. Neither does he desire to work nights, he said to Manager Bingham recently.

Bingham declared Saturday he believed Strick would accept the promotion, altho he said they had talked the matter over and Strick objected to being tied up on the night trick for the remainder of his life.

**MAY MEET TONIGHT**  
Some assurance that he would be given day work later was held out to him by the city manager.

Bingham told Strick, he said, that he wanted him as second in command in the department. It was for this reason that he selected him to go to police school in Chicago.

Strick is in Chicago to bring James Atkinson, Sunday school superintendent, back to face trial.

## DEMERITS FOR PATROLMEN WHO MISS DRILLS AT GYM

Police officers who absent themselves from physical culture and drills held at the Y. M. C. A. twice each week, are jeopardizing their chances of future promotion. Manager Bingham informed Chief Morton F. Dawson Saturday.

A bulletin has been posted in the squad room, notifying patrolmen that absence after April 1, will be chalked up against their records for each and every absence, not excused.

**MUST TAKE DRILL**  
Military drill for all officers is mandatory, Bingham declared Saturday. Officers who are handicapped by ailments and who furnish a doctor's certificate of disability, may be excused from physical culture, but they must take the drill.

No one is excused at present, Bingham said, altho one or two officers promised to bring certificates from physicians.

When told that Detective Kipker and Officer Billstein had been absent because they had no gymnasium shoes, Bingham instructed Harry N. Osgood to find out when the shoes would arrive.

Both officers, it is said, tried drilling in their stocking feet, but desisted after one attempt. They found it hard to maintain a footing on the polished gymnasium floor and threw the squads into confusion when others stepped on their feet.

Bingham was told by Osgood that another officer lacks a shirt, and one is being made to order for him.

Firemen seem to have no trouble in attending drill and none have been reported A. W. O. L.

**SCHEDULE CHANGED**  
Their schedule has been changed. One class limbers up on Monday and Friday, and the other Tuesday and Thursday.

Manager Bingham is of the opinion that the drill and exercise will eventually prove popular.

Individual officers say they would be far better pleased with the work if it could be conducted at the station, and held daily for 15 to 20 minutes instead of two-hour sessions each week.

## PLAN EFFORT FOR RELIEF FUNDS

**Big Deficit Faced By City Social Service Bureau**

**\$15,000 TO \$50,000 NEEDED**

**Many Bodies Pledge Aid In Preliminary Meeting**

In the opinion of those who came under the influence of the voice of Mrs. Irene Mills Jackson, head of the Social Service bureau, at the Chamber of Commerce rooms, Friday night, any amount of money needed for the prosecution of the work of the bureau would be quickly forthcoming if Mrs. Jackson's message could be heard with the same vividness by all citizens of Lima as was experienced by the hundred or more present.

Her voice shaking with emotion and at one time almost breaking down as she recited the details of the spectre of want in many Lima homes due to industrial depression and lack of employment, Mrs. Jackson "put across" her plea of financial aid for the Social Service bureau. Every one present was thoroughly sold on the proposition and in consequence checks began to pour in before final details of a campaign were worked out.

**BUREAU FACES DEFICIT**  
Briefly stated, the Social Service bureau, as a result of extending aid during the winter months to those in want, is facing a deficit of \$7,000. It is estimated that the amount will be increased to \$11,000 by April 1st.

"Something must be done, and done quickly," Rev. Kyle Booth, chairman, stated, in directing the meeting during the absence of E. M. Botkin, head of the bureau organization.

Preliminary plans were laid for staging a move for a fund of \$15,000 to \$50,000, estimated as the amount that will be needed to liquidate debts incurred by the civic bureau and enable the organization to carry on its work until something like normal conditions return.

C. A. Hiatt, Harry Bentley, Glenn Webb and Frank Cunningham are the members of a committee named to direct the campaign. A chairman has not been announced, but is expected to be soon.

Representatives of churches, clubs, lodges, chamber of commerce, city administration, Salvation Army, Federated Women's clubs, the League of Women Voters and other bodies were present.

The sentiment was unanimous in favor of starting a campaign immediately. Checks for various amounts have been received by Mrs. Jackson to tide over temporarily, to offset the amount of work slips issued. Another meeting will be held Wednesday evening, March 29, at the chamber of commerce auditorium, when it is expected that the contemplated drive will be launched.

Rev. J. M. Mills, minister, Glenn Webb, president of the chamber of commerce, J. W. Beall, of the Ohio Steel Co., C. A. Hiatt, of the outdoor relief organization; J. E. Morton, of the Merchants' Association; A. C. Calacab, president of the Kiwanis; R. E. Ashley, head of the Lions club; H. N. Osgood, representing the city; J. Kennedy Johnson of the chamber of commerce; George Metheny of the telephone company; Walter Toy, county surveyor; Mrs. Beecher Moke, head of the Federated Women's clubs; Ed. M. Gordon of Rotary, and others approved the plans offered after hearing the report submitted by Mrs. Jackson. Four-fifths of the relief given since last September has been because of unemployment, Mrs. Jackson said. The picture she painted of conditions in the city was most pathetic.

**COST OF RELIEF WORK**  
As an evidence of growing demands made upon the bureau, in October there were 374 families being afforded relief. The sum of \$223.34 was expended. In November the number of families given relief increased to 496 and the money outlay was \$612.66. For December, 478 families and \$2,277.12; January, 667 families and \$5,087.41; February, 734 families and \$7,467.13. Mrs. Jackson estimates expenditures for March at \$8,000.

Work slips totaling \$4,339.20 were issued in January, \$5,000 in February and \$3,267.60 this far in March. Funds provided by the city are nearly exhausted, large sums are owing grocers on work slips at the rate of \$2.50 per day for men employed and in one instance further credit was refused the bureau by a grocer, Mrs. Jackson stated.

Children Cry for Fletcher's Castoria.

### Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrup were the remedies in common use for infants and children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for infants and children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

Genuine Castoria always bears the signature of *Dr. J. C. Fletcher*

Children Cry for Fletcher's Castoria.

## ADRIFT FIFTY HOURS IN SEA, PILOT SAVED

**MIAMI, Fla.** — (Associated Press) — Robert Moore, pilot of the flying boat Miss Miami, missing since Wednesday morning, when the boat left here for the island of Bimini, in the British Bahamas, was being brought to Miami today and with his arrival it was expected that information would be obtained as to the fate of the five passengers.

Moore, more dead than alive, was picked up by the Tampico-bound steamer William Green last night about fifty miles off shore and about 100 miles north of Miami.

The captain of the steamer immediately reported the finding of Moore and said he apparently was the sole survivor of the accident which forced the Miss Miami down in the open sea. The passengers aboard the flying boat when the left here for Bimini, a forty-five minute flight, were Mr. and Mrs. August Balte and Mr. and Mrs. Lawrence E. Smith, all of Kansas City, and Mrs. J. S. Dickson of Memphis, Tenn.

Moore was unable to give a coherent account of what had happened. The captain of the William Green wireless back to Miami during the night and the only information that had been obtained was that he had clung to the wreck of the flying boat for more than 50 hours in a heavy sea.

# SPORT CORES

He was an outfielder here, made an awful racket, pulling them from the air. They always hit in his paper basket.

On again, off again, Finnegan.

'Tis the case in the K. of C. doubles tourney.

Standings are uneasy—like crowned heads.

And beheaded as often.

The girls will soon be bowling higher scores than men.

Then the jealous anti-suffragists will want a bowling supplement to the 19th amendment.

Are there any spheres in which woman is not sprinting ahead of her liege lord?

It's a tough world.

Look what the boxing commission sent and did—raised the tariff on pug exhibits.

If the moguls shove enough excitement in cards to justify the hoost, alright; if not, too bad.

He went down to the training camp, a baseball player, and fished so—He shortly took a train.

South High Vets were better than the White Stars, junior title contenders, beating them 27 to 20 Friday night.

## REGAIN LEAD IN TOURNEY

First place in the K. of C. mixed doubles tournament was regained Friday night by Miss Margaret Horrigan and Bert Sealts, who together bowled 941, which, with their 1,030 at the end of the first round March 17, gave them a grand total of 1,971.

They are being closely pressed for top position by Mrs. E. McCintock and G. Endie, who smashed their way to second place with a 1,900. Miss Schirmer and Frank Razmus, who have led at the conclusion of the first halves of the two rounds already bowled, are third.

Frank Seibert exhibited a nice bowling wing, sweeping the pins into the pits in three games for 652. The first was a 192, the second 204 and the third 256. This record is the best so far in the tournament.

But, however, he was not high in individual score of the evening. Ed Stapleton beat him in his first game with a handsome 267. Results of Friday night's bowling:

## BEHIND YOUR BACK

A PRIVATE telephone apparently no longer protects you from having people listen in on your conversation.

The Society for Electrical Development announces that Albert E. Proffitt, employed by the telephone company at Providence, R. I., has perfected a radiophone device that enables him to eavesdrop on talk passing over telephone wires.

Proffitt, experimenting with his radiophone, wired his amplifier in some peculiar way that is being kept secret. Immediately he began to hear local telephone conversations—which he repeated to the talkers, amazing them.

While Proffitt's device still is in embryonic stage of development it opens up a vast new field for the wireless—the possible ending of secrecy, duplicity, intrigue and talking behind one's back.

You cannot sit in your home and eavesdrop on a conversation in a house a mile away without mechanical help.

The eavesdropping for some years has been possible by means of the simple dictograph employed by detectives.

The listening-in process is carried a step further by Proffitt's radio discovery. It is not impossible that we soon may have a wireless device able to pick up private conversations in distant homes, offices or rendezvous of criminals.

The idea seems uncanny now. So did the wireless telegraph when Marconi first announced its invention.

Civilization will advance with leaps and bounds when secrecy among men is made impossible. Without secrecy there could be no criminal organizations, war plots, illegal trade combines or conspiracies against individual life, honor or fortune.

End secrecy and you end dishonesty born of intrigue.

Suppose a mechanical device were suddenly discovered enabling people to eavesdrop on face-to-face conversation, the same as tapping the wires of a telephone system.

That would end most hypocrisy and deception, also malicious gossip. The things said in secrecy would usually remain unsaid if the talker knew he were being overheard by the one gossiped about, and would be called personally to account.

Enormous are the possibilities of ending secrecy, the cancer of civilization. Proffitt may have opened the way. Maybe not. But this is worth thinking about—that the wireless, as it exists now, is crude compared with what it will be developed into, just as the flint-lock musket of Colonial days was crude alongside the modern machine gun.

The wireless and other inventions to follow will link all human brains in a vast system of mechanical mental telepathy.

## IT'S SAME YARDSTICK, SUFFERERS

DEMAND arises in Northwestern Ohio for the abolition of the State Utilities Commission, largely because it has granted increased rates to the natural gas companies

serving that region. Leading the movement are those guardians of the family purses, the housewives, and it is thru the women's clubs that the direction comes, says the Cincinnati Enquirer, which adds the following:

This performance recalls the fable of the eagle pecking at the feather on the arrow transfixing its body and sorrowing because the plume was from its own wing. The hunter was ignored, tho it was his hand that sped the deadly shaft.

In the present instance it is the state of Ohio that is responsible for the increase in the gas rate. Thru its Tax Commission it has for years constantly been adding to the taxable valuation of these public service companies until the total has become enormous. In turn the corporations base their charges upon the cost of duplicating their plants, the rule having also been fixed by the state. Upon the showing made the State Utilities Commission has no other recourse than to adjust the rate to the valuation prescribed by another co-ordinate department.

Last year the grand duplicate showed a recession of \$55,000,000 in returns for personal property, yet the total as certified showed a general increase. This was obtained largely thru expanding the valuations of the public utilities. This conduct is now before the State and Federal Courts, the utility company counsel asserting that the property of their clients is specially valued in contravention of the constitutional rule that all property—not some—shall be taxed by a uniform rate at its true value in money. Meanwhile the consumer pays all the bills under the hoary practice of passing all taxes along to the ultimate payer.

## PHONOGRAPHS

SAD news for families that live in apartment houses: Phonograph makers say they'll sell 1,500,000 machines this year.

Phonograph sales rose and fell with the tides of prosperity. About 540,000 machines were sold in 1914. Sales crept up to 600,000 in 1916 and 900,000 in 1917, reaching a peak of 2,225,000 in 1919, when the boom exploded. We express ourselves in music more ardently when times are good.

How many records have you? The average is 35 to the machine. New York banker is at head of the list with 2100. He must have a lot to rejoice about.

## 'ROUND LIMA HOUR BY HOUR

### BY OH, OH, JACKENRIM

A Page from the Diary of an Antiquated Reporter:—I, up after a long talk into the night with my wife about our frugal life for the time to come. Proposing to her what I could do and would, verily I do believe, if I were worth what our playmates are that to be worth; and how I would be her gallant knight and buy her a coach. All of which did please her greatly. So I do hope we shall hereafter live to save, for deep is my irrevocable resolve to keep myself by rules from expenses.

I abroaded, and stopped at Schneider & Davis, the jewelers, and didst purchase a poore's-box to put my forefingers in, upon breach of my night's vows. Thence to the poste, and saluted by a massive missive from Charles L. Knight, the Akron scrivener. And penning his lines, he being a slave in Congress, about the Soldier's bonus, says he: "This bill (deleted) would have rejoiced the

heart of Col. Sellers and made J. Rufus Wallingford green with envy." He views with alarm that taxpayers will howl and yowl when they realize what has happened to them. Always what has. Sub-rosa, I think Charlie wants to be governor. But I ever prefer home talent, Peerless Harry O. Bentley or James Washington Halhill. This post-war idea that the pasture is greener in Akron or Dayton, makes no hit with me.

To the office, and sat. Thence up North Main to Erie's new debating parlors, to see how he demeans himself since becoming a master orator. So out and across the plaza to the Avenue. Caught step with an old Irish friend from the B. & O. roundhouse. A clever, keen servant, but rather dormant in mind this day and complaining about our Sears-Roebuck government. Cheered him with the thought that Colonel Harley and Commissioner Rohm have secretly announced there will be no more catalogue ordering. And the city directory General Byng's future job-finder.

At candle light, I with my wife, went house shopping again. Found a place close in, with the old barn used for a garage, and only \$190,000. Decided we didn't want a close in property; so out into the State Street colony. A strictly new, modern except hired girl, but with drop leaf in the kitchen. Could be had for \$30,000, including mortgage. Real estate owners think we are still in the munition finance era. My wife, poor wretch, downhearted. I cheered her with memory of honeymoon days. When we bought our first folding bed \$2 down and \$2 a week. I wore out a pair of shoes walking into Frank Harman's with that \$2 every Saturday. It was the first and last installment purchase I ever made, or will.

Dined on corn fed beef, and a pudding of raisins and rice. In the evening, I with my wife went over the furnished rooms ads. With weather predictions warmer tomorrow, I started bath semi-weekly, tho usually wait until April. So to bed.

## IF A BODY KISS A BODY, CAN A BODY GET A DIVORCE?

KANSAS CITY, Kas. (Special)—'Tis the modern legal opinion that

"To give a kiss to some lone male Cannot make matrimony fail."

For such was the ruling handed down recently by Judge Frank D. Hutchings in a Kansas City divorce hearing.

His new version displaces the one of ancient times:

"Or leave a kiss but in the cup And I'll not ask for wine."

Nick Herratin appeared before the judge, seeking separation because his wife had gone to a park and kissed

another man. He introduced as a witness a detective whom he employed to watch his wife. According to this sleuth Mrs. Herratin embraced and kissed a man in a public park.

This testimony was not disputed. And then Judge Hutchings said:

"The fact that the plaintiff's wife kissed another man seems to be established. However, that does not strike me as conclusive proof that she was unfaithful to her husband."

"Kissing, these days, is looked upon as a less forcible proof of love than in years gone by."

He suggested that the couple patch up the quarrel.

As a result Kansas City folks are arguing for and against the ruling. "Mental torture is a cause for di-

vorice in Kansas," says Mrs. Marie Jones. I certainly would consider promiscuous kissing by the wife as coming under that head."

Judge Thomas J. Seehorn of the Circuit Court of Kansas City, Mo., says the motive behind the kiss should influence the judge in the case.

"Some kisses might be innocent," says he, "and others full of guilt."

Mrs. Henry N. Ess, leader among Kansas City clubwomen, sides against the ruling.

"There are certain things one cannot do after marriage," says she. "One of them is meeting men in a park and kissing them."

Many simply say, "Well—there are kisses—and kisses!" What do you think?

Suggests to Suffering Women the Road to Health

Fulton, Arkansas.—"I used Lydia E. Pinkham's Vegetable Compound for a soreness in my side. I would suffer so badly every month from my waist down that I could not be on my feet half the time. I saw your Vegetable Compound advertised in a newspaper and gave it a fair trial. Now I am able to do my work and don't even have a backache every month. I cannot praise your Vegetable Compound enough and highly recommend it to those who have troubles like mine. I am willing for these facts to be used as a testimonial to lead all who suffer with female troubles, as I did, to the right road to health."—Mrs. LULA VANN, Box 43, Fulton, Arkansas.

It is this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letter, one woman to another, that should cause you to consider taking this well-known medicine, if you are troubled with such symptoms as painful periods, weak, nervous feelings, miserable pains in your back, and cannot work at certain times. Here is a woman who is so grateful and glad to be relieved from a painful and nerve-racking physical condition that she wishes to tell all sick women.

### CRITICS UNANIMOUS IN PRAISE

"If Winter Comes" is not only a thrilling tale, it is an important work of art. I do not know when I have had more continuous enjoyment in reading a new book. "If Winter Comes" is one of the best books of our times.

—William Lyon Phelps in *New York Times*.

The book is one of the very best that has recently appeared.

—*Literary Digest*.

It is penetrating, bubbling with humor, pathos and genuine excitement \* \* \* The home background of the war, touched only slightly, was never more skillfully done even in "Mr. Brilling" \* \* \* Because it is the novel of an expert craftsman, it is vivid and real. —John Farrar in *The Bookman*.

No finer novel has been written in years.

—*Chicago Evening Post*.
